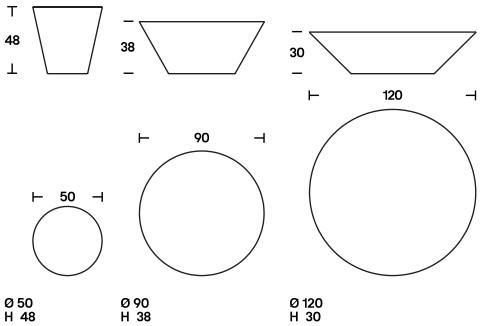
Pond

Year	2006
Designer	Marco Acerbis

A playful and spirited re-imagination of quintessential Italian living room pieces, the Pond family of cocktail and side tables, designed by Marco Acerbis, with a conical base that seems to disappear into shadow, creates an illusion of a watery surface in high-gloss glass, or intrigues with the mosaic of minerals and grains of the marble top.
Pond low tables are Easily adaptable to various spaces, come in a range of measurements, with a 120 cm version on removable wheels which are hidden inside the base.

Dimensions



Finishes

Top in the version:
