PRODUCT DESCRIPTION

Matera brings the quiet strength of concrete into a refined contemporary form. Arched linear pendants create a soft architectural span, balancing the weight of cast material with the warmth of integrated LED downlight. Offered in Chalky White or natural Grey, the concrete surface adds organic texture and subtle variation to each piece. Two pendant lengths provide scale for dining tables, islands, and open spaces, while coordinating flush mounts echo the same sloping profile in three sizes. With selectable CCT, Matera pairs material honesty with modern lighting flexibility.
