

Amber Lewis x Four Hands

Amira Chair

Lavon Flint • 244120-002

Overview

Inspired by the traditional wingback chair but with an art nouveau twist. The wing's organic curved frame welcomes a woven seat back with subtly striped linen/cotton upholstery. A rope fixed to the back of the seat cushion is both functional and aesthetic, creating a more relaxed, comfortable look. A design collaboration by Amber Lewis and Four Hands. This item has limited online distribution and may not be sold on websites without prior approval. Visit the FAQ page in our Help Center for more details.
