

Ceramic Dinnerware

Behind the Design

Dinnerware inspired by a tradition that's been kept alive for over a thousand years. Crafted from clay made in-house at a female-owned ceramic studio in Guadalajara, each piece is shaped on a pottery wheel by hand. Features subtle imperfections, including visible interior grooves from potters' fingers, with earthen finishes for an organic look and feel. Pieces are dishwasher- and microwave-safe.

Care Instructions

- Avoid prolonged contact with acidic or oil-based foods or liquids.
- Avoid abrasive or bleach-based cleaning products as these can affect or strip finish.
