

Kamina Coffee Table

Fossil Marble • 251444-001

Overview

Bold in dimension, this rounded square coffee table features a thick mango wood base with a textural marble top that overhangs for added detail, mirroring the swooped subtle pedestal at the bottom. Rich in texture and detail, natural features get to shine in this single piece of marble. A design collaboration by Amber Lewis and Four Hands. This item has limited online distribution and may not be sold on websites without prior approval. Visit the FAQ page in our Help Center for more details.
