after put top on the base

## Step 2

Put the top on the base and assemble, after checking all bolts and make sure they are even please tighten the bolt fully

## Completed Assembly

### Adjusting Floor Levelers

Your furniture has been expertly crafted and pre-adjusted by professionals. However, slight shifts can occur during transportation. If you notice that the doors are not perfectly aligned or the furniture wobbles, a quick adjustment can help ensure stability and a seamless look.

#### Adjust floor levelers

**Check for stability-** Place the furniture in its final position on a level surface. If it wobbles or doesn't sit evenly, the floor levelers need adjusting.

**Locate the levelers-** These are small adjustable feet found at the bottom corners of your furniture.

**Adjust as Needed-** Using your hand or a wrench, turn the levelers clockwise to raise or counterclockwise to lower the furniture. Make small adjustments and check stability after each turn.
