

1

After drilling a screw in the wall in the desired location, bring the lamp closer to the wall, connect the cables from the wall (main power) to the connectors. Hang the lamp via the designated areas (marked in gray).

How to connect the wire to the connectors:
1. Pull up the orange handle.
2. Insert the cable
3. Close the orange handle over the cable
- Now the cable is locked in the connector.
