Light that matters

**Silk Lighting Maintenance:** All Lampshades in the Silk Lighting Collections are made of hand dyed, treated crushed silk that is resistant to mold and fire. The silk is sculpted over a metal structure. For optimal maintenance, vacuum the silk frequently and avoid direct sunlight or smoke. To remove stains use upholstery foam cleaner. (As these vary depending on manufacturer, testing the product on a hidden spot is recommended)

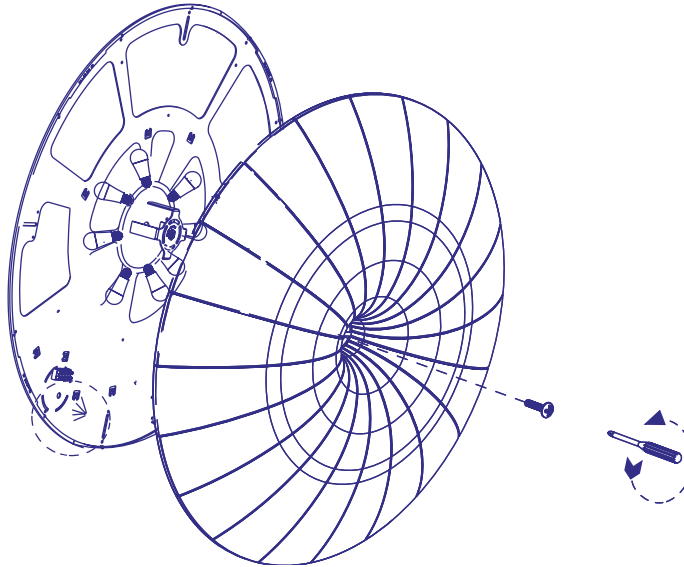

1

Install wall / ceiling plate, using upplied bolts. Connect the voltage supply wire to the fixture's electrical wire and confirm electricity supply.

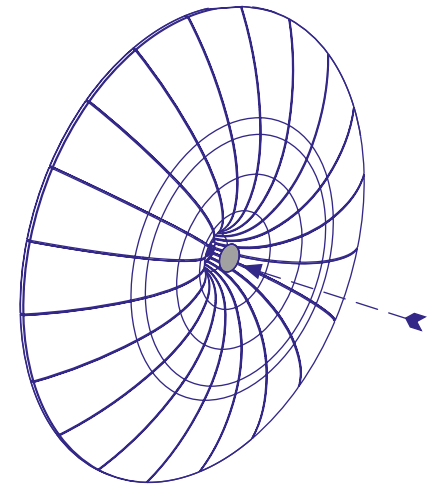

2

Screw the main bolt as shown.

3

Push supplied stainless steel plate with magnet as shown.
