KENSEY DISCS MIRROR

3151

D: 2 IN, Dia: 43.00 IN

Burnt Iron

The Kensey Discs mirror takes over 20 large discs of iron to make each mirror and each disc must undergo an intensive process in order to get its interesting oxidized look. Discs are hand-cut, forming the raw edges, then given an oxidized finish with a chemical-and-fire technique. This free-hand artistry comes together to frame an industrial, rich mirror. Finish may vary.
