Chattered Antique Brass

Sleek, modern and unexpectedly full of texture, the Griff delivers an unrivaled dynamic to a space. Its slender profile is composed of solid steel, which has been finished in antique brass and chiseled with a chattered detail that lends a handcraftertified for damp locations and intended for interior use. Damp-rated, although limited covered outdoor areas may affect finish.d character to the piece. A focal point for any modern setting, though we see this chandelier styled over a dining table. For a larger tablescape, try hanging in multiples to maximize impact.
