*The Eave Collection expands with  
a new sectional sofa series.*

Audo introduces Eave Seamlane, modular sofa designs made with creativity, comfort and customisation in mind.

The building blocks of bespoke design, each module is characterised by clean lines, stitch details and concave and convex forms, looking to the same architectural elements as the original Eave sofa collection for its design cues. From corner modules to open sections and chaise longue segments, nine individual pieces seamlessly integrate to create the ultimate sectional sofa that fits a space and needs perfectly.

In addition to individual modules, Eave Seamlane is also available as pre-configured four-seater sofas in two versions. The first features five individual modules integrated for a sleek and streamlined look, while the second combines three modules into one sofa for a unique combination of functionality and aesthetics.

Eave Seamlane enables the creation of beautiful, organically shaped sofa configurations which not only enhance aesthetics but also infuse a playful charm into a space.

*About the Designer*

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialises in residential architecture, commercial interiors, industrial design, photography and art direction. The name reflects the studio’s emphasis on drawing inspiration from norms and traditions in architecture and design—particularly the Scandinavian design ideology of timeless aesthetics and natural materials and Modernist ideas of restraint and refinement. Guided by these principles, Norm Architects creates designs that unite materials and craftsmanship while embodying beauty, history and, most importantly, timeless simplicity—with nothing more to add or subtract.

A longstanding collaborator with Audo, Norm Architects helps to drive the evolution of the brand and its products with the same fundamental ethos that guides its own creative direction: a simplicity that carries bigger ideas.
