The ECLIPSO Coffee Tables by Jaime Hayon embody the playful precision of the wider ECLIPSO collection. Inspired by rounded forms and the quiet magic of a lunar eclipse, they bring lightness, movement, and rhythm to any space. Designed for residential and hospitality interiors, the tables combine versatility with presence, allowing dynamic arrangements in different sizes and heights. The legs are made from 95% recycled Hydro Low Carbon aluminum, while FENIX-coated MDF tabletops provide a durable, matte, fingerprint-resistant surface. Available in green, oxide red, and beige, the tables exemplify Hayon’s philosophy of “the minimum with the maximum,” transforming functional objects into dynamic pieces that enhance everyday life with warmth, personality, and effortless presence.

The wood used in this piece is FSC certified.
