

Gold Is Up

Caracole

Gold Is Up is the perfect solution to so many needs. You can use it as a chairside table in the great room, a cocktail table replacement at each end of a sofa, a single cocktail in front of a settee, a small nightstand in a guest room, or a bathroom accent for a stack of towels. Each table has an ombre effect which is a gradation of color that is deepest at the bottom and lightest at the top. This piece has a traditional shape, transitional finish treatment, and a contemporary attitude - what environment wouldn't this look fabulous in?
