Install the Fixture

For Standard Wiring:

- 1 Secure the mounting plate to the junction box.
- 2 Screw the cap into the hole in the bottom of the backplate.
- 3 Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 4 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 5 Connect the black fixture wire to the hot power line wire with a wire nut.

For Plug-in:

- 6 Secure the mounting plate to the wall.
- 7 Feed the cord through the stem and through the hole in the bottom of the backplate.
- 8 Screw the stem into the bottom of the backplate.
- 9 Connect the fixture ground wire to a suitable ground in accordance to local electrical codes.
- 10 Connect the white fixture wire to the neutral cord wire (square and/or rigid) with a wire nut.
- 11 Connect the black fixture wire to the hot cord wire (round and/or smooth) with a wire nut.

For Both:

- 12 Properly place all wires and wire nut connections into the junction box/fixture base, mount the fixture onto the mounting plate/fixture bracket, and secure it in place using the fixture screws.
- 13 Install the shade by aligning the holes on the shade with the holes on the bracket and the socket, then secure in place using the shade screws.
- 14 Screw the lamp into the socket. Refer to the label on the socket for Max Wattage Information.
- 15 Adjust the fixture arm as needed.
