The shade of the Palatino 1-Light Multi-Drop Pendant gives the impression it is its own complete universe replete with its own Milky Way. Made of two layers of glass - the interior white and the exterior blue - the shade shimmers with Mica dust that is tossed onto the surface of the molten glass, which is twisted to achieve the swirls that mimic the wonders of the night sky. The surface glimmers even when the light is switched off. The canopy of this piece is luminous in a painted silver finish.
