A fanciful creation, the Buttons Table Lamp earns its name given the body of the white lamp is covered with hand-applied, button-like circlets. The ornamentations are made of ceramic, as is the lamp's body. The columnar fixture and its adornments are glazed in a crisp white once they have been applied. The painstaking attention to detail that is required to create such a varied but balanced pattern is achieved by a talented group of women artisans who live at the border of Burma and Thailand.
