Lyra Black Small Planter

2200-0036

In Stock / New

Overall: 5.5"h x 13"dia

Finish: Reactive Black

Materials: Ceramic

Item Weight: 13 lbs.

The Lyra Black Small Planter is a bowl-shaped garden planter with a surface that looks like it has fissures and craters in it thanks to the incredible reactive black glazing that was applied after the vessel was fired. Some spots on the surface of the black planter exhibit a hint of sheen while others are matte and mottled. The Lyra has a drain hole, though the vessel does not come with a plug.
