Lyra Beige Large Planter

2200-0041

In Stock / New

Overall: 9"h x 21.75"dia

Finish: Reactive Cream

Materials: Ceramic

Item Weight: 54 lbs.

The Lyra Beige Large Planter is a bowl-shaped garden planter with a surface that looks like it has fissures and craters in it thanks to the incredible reactive cream glazing that was applied after the vessel was fired. There is a mottling on the surface of the tan planter that brings it an incredible texture. The Lyra has a drain hole, though the vessel does not come with a plug.
