Interstellar Tray

1200-0857

In Stock / New

Overall: 2"h x 17.5"w x 9.75"d

Finish: Red Swirl

Materials: Glass/Paper/Engineered Wood

Item Weight: 5 lbs.

The Interstellar Tray has a surprising secret: it is not made of a dynamically patterned stone; its surface was created when red swirl paper was encased in glass. The coating brings the decorative tray an unparalleled sheen. The interiors of the handles are covered in black felt and the bottom is covered in foam.

Because this accessory is handmade, the patterns will vary.
