Inspired by the famed design movement, the Memphis Credenza illustrates the bold patterns inherent in the style. This piece brings the utmost sophistication to the motifs in a mix of natural oak, Mindi wood in an espresso finish, black Macassar ebony, and mahogany. The scale of the plinth base, which she pulled in and designed to echo the proportions of the credenza, makes the brown and tan credenza look as if it is floating. The polished cast-brass door pulls are so tiny, they all but disappear.
