The Baobab Large Silver Chandelier has luminous leaves that are made of recycled glass that has been pressed into shape. The biophilic design is made even more graceful by the placement of the glass pieces that seem to be fluttering in a breeze, the ribs of wrought iron in a contemporary silver leaf finish curved as they flow from the central orb and slanted as they rise above it. The leaves are attached by hand with finely-designed brads. The 12-light fixture is dimmable.
