Blount Marble Object

1200-1030

In Stock | New

Overall: 13.5"h x 4"w x 10"d

Finish: Natural

Materials: Emperor Marble

Item Weight: 19 lbs.

The Blount Marble Object is a geometrically complex sculpture made of Emperor stone, a type of marble that is known for its rich dark brown color and natural pitting. The bold veining is also a characteristic of this stone that is mined in Spain. At 13.5 inches tall, the decorative accessory will be uniform in shape from piece to piece but the surface features will vary slightly.
