## Dujardin Equestrian Sculpture

1200-1033

*In Stock | New*

Overall: 13"h x 10"w x 4"d

Finish: Gold

Materials: Cast Aluminum

Item Weight: 6 lbs.

The Dujardin Equestrian Sculpture is made of cast aluminum in a brilliant gold finish. With subtle surrealistic lines, the characters captured in the story have features that are implied—the mom supporting her child who is riding a horse for the first time, captured in a sentimental moment. The gold sculpture stands 13.5 inches tall.
