Item Weight: 14 lbs.

The Piddock Square Mirror has a coastal-inspired design crafted from an array of white seashells in various sizes and shapes. This natural composition creates a beautifully textured and organic frame, adding a touch of seaside charm to a room. Its square design makes it perfect for grouping in multiples to create a striking wall display. There will be slight variations in the surface of the mirror; the shells are hand-applied so no two will be the same.
