Item Weight: 11 lbs.

The Vicolino Large Vase is made of clear and purple hand-made glass with organically placed bubbles floating within its overall form. The vase was created using a Venetian glass technique that is very rarely practiced in modern times. The slim silhouette has a shape that is reminiscent of a perfume bottle, the narrowness making the vase ideal for nightstands, smaller consoles, or shelves that are not very deep. Both sculptural and functional, this vase will be a glamorous accent piece in the most sophisticated setting.
