1200-0990

In Stock | New

Overall: 13.5"h x 7.75"dia.

Finish: Green / Gold

Materials: Glass / Gold Powder

Item Weight: 11 lbs.

The Vitry Green and Gold Vase is a luxurious result of traditional artisanship realized by the method of mouthblown glass artisanship for which the Venetians were renowned. The striking piece has white glass on the interior and a rich dark teal on the exterior. The rounded silhouette is adorned with swirls of metallic gold that flow organically across the deep green surface like liquid light, each swirl hand-applied to add a sense of movement to its profile. This makes each piece unique.
