Shade Dimensions: 6.75" x 14.75"h

Though the organically shaped glass shade of the Calmar Pendant appears to be frosted, the texture is created when the glass is infused with tight bubbles so that it looks as if it is filled with air. Because this is an artisanal piece with the finest characteristics of Venetian glass, each shade will vary in shape slightly, though they will be similar enough to be hung in rows or in groupings over large tables or islands. The fixture has one light and is dimmable.
