Socket Type: E26

150/150

Cord: 8' Clear Silver

Switch: 3-Way Turn Knob

Shade: Off-White Polyester

Shade Dimensions: 20" x 12"h

The Gavin Black Floor Lamp is made of cast aluminum with a tall, slim body divided into three sections finished in matte black. The textured surface is created through a process called knurling, which gives the lamp a striking tactile quality. Slightly indented bands in an antique brass finish separate the sections and tie in with the round brass base, adding contrast and refinement to the design. Due to the artisanal treatment, the surface of each lamp could differ slightly.
