The Wemyss Wall Sconce is a large-scale design with a curling ribbon of iron that folds beneath the bobèche, the black metal in a gilded oak wood finish. Above the bobèche, a smoke hammered-glass canister encloses an elongated bulb, its textured surface dappling the glow. The bold form and warm finish give the sconce a distinctive Americana character. The one-light sconce is dimmable, and there will be subtle variations in the hammered glass from fixture to fixture.
