The floral artistry of the Star Magnolia Wall Sconce is created by its upwardly flowing beauty and impressive scale. The metal elements that ground the gold sconce are covered in an antique brass finish, while the blossoms extending from the outer leaves are finished in white. The smaller leaves fluttering from the branches are made of pressed glass, each of them handmade. Portions of the metal have been hand-hammered to add subtle texture to surfaces. This 10-light fixture is dimmable; and the surface treatments may vary slightly from sconce to sconce.
