

# CRYSTORAMA LIGHTING

ASSEMBLY INSTRUCTION MODEL #KLN-5206-LG

All electrical components must be installed by a licensed electrician in accordance with the National Electric Code and the appropriate local electrical codes.

You will need 6- Cand. base Bulb  
40 Watts Recommended 60 Watts Max  
USE LED BULBS FOR EXTENDED USE

THIS FIXTURE IS DAMP RATED

## How to Install

Please place all the parts on the soft cloth covered table top during the installation of the fixture.

1. Thread the loop onto the rod at the top of the frame.
2. Install the mounting bracket onto the outlet box.
3. Decide the preferred hanging height and choose the correct length of chain needed.
4. Raise the fixture up to the ceiling and do the wire connection. Secure the canopy using the collar ring.
5. Remove the four screws to separate the lower frame from the upper frame. Install the bulbs (not included), then reverse the upper frame so that the studs face downward. Reattach the upper frame to the lower frame and secure it with the four screws.
6. Remove the ball nuts from the frame. Starting from the inner tiers (the tiers ring with the short studs), place the ceramic butterfly and plastic washers over the stud and secure it with the ball nut. Please do not overtighten it to prevent it from breaking.

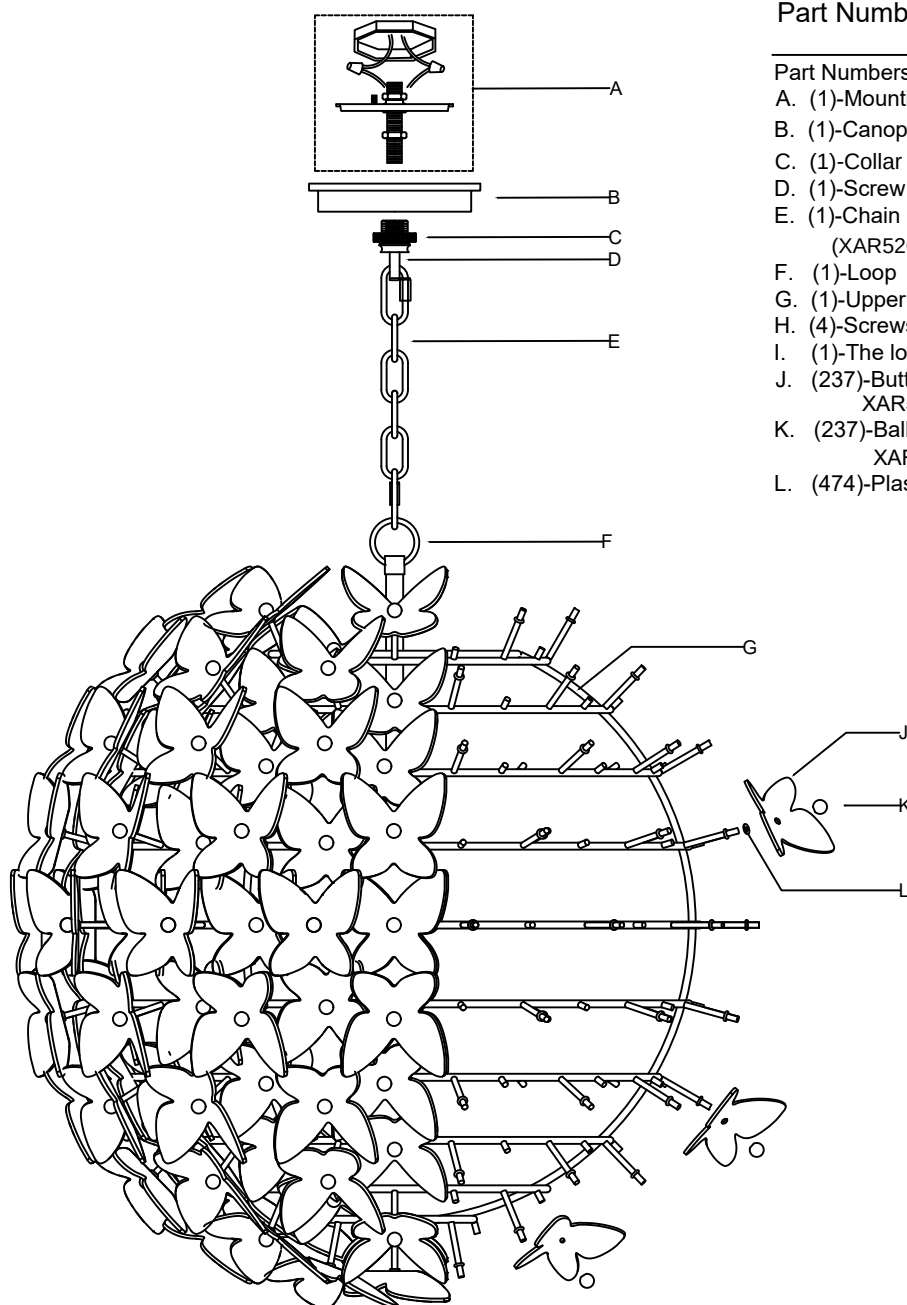

## How to change the bulb:

1. Identify the four screws on the lower frame and remove them using the screwdriver.
2. Take the lower frame off and change the bulb.
3. Reinstall the lower frame and butterfly nuts, then secure the frame with the screws using a screwdriver.
