Altura Bench

Patricia Perez

Created with functionality in mind, the Altura Bench, designed by Patricia Perez, is part of the Altura collection and it mirrors the Altura Step Stool in its practical and convenient design. Perfect for the hallway, the bench has a bottom shelf that can be used for storage and display purposes.

Crafted from oak veneer and solid oak edging in either a black stained or natural finish, the bench features curved legs and two useful tops. The Altura Bench is finished with a clear lacquer, allowing the natural warmth of the wood to come through, requiring minimal maintenance.

Made in Thailand.
