

Eclipse Collection

Charlotte Lancelot

Eclipse Throw and Cushions

Charlotte Lancelot

To create her Eclipse range for Case, Belgian designer Charlotte Lancelot turned to the geometric patterns that characterise the Brutalist aesthetic. She updated these striking forms using an array of contemporary colourways, meticulously chosen to create the perfect combinations. "A harmony of colours can make you feel good," says Lancelot. "And I always think of textiles like clothes that are worn by your home." Each piece was crafted in Portugal using organic cotton, with exquisite attention to the design's every detail.

Made in Portugal.

Technical / Construction

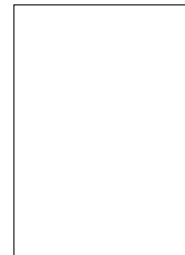

- Oeko-tex certified
- 100% organic cotton
