

ALFI COLLECTION by JASPER MORRISON

emeco

FIRST LET'S MAKE THINGS THAT LAST.

The Emeco 1006 Navy Chair was first commissioned in the 1940s by the U.S. Navy for use on warships – the contract even specified that it had to be able to withstand torpedo blasts. Today our chairs are still made in the U.S.A., of 80% recycled aluminum, and are made by hand, by Emeco craftsmen using the original 77 step process. The world's best architects and designers collaborate with us to design chairs that are built and guaranteed to last a lifetime.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful furniture that lasts through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

Extra-Ordinary

ALFI by JASPER MORRISON

Emeco and Morrison together, designed and engineered The Alfi Collection with the conviction that what you *don't see* is as important as what you *do* see. Alfi reflects Emeco and Morrison's common appreciation for the invisible qualities behind simplicity. Made from reclaimed and responsibly selected materials and engineered for comfort and strength, Alfi embodies these hidden values.

Choose between 6 colors, high and low seat backs, frames in natural or dark-stained ash wood. Aluminum frames for high traffic areas and outdoor use are available for chairs. The swivel chair is offered with casters or glides. Alfi Soft is a removable, retrofittable upholstered slipcover suitable for chairs and stools.

With Alfi, Emeco continues its exploration of using reclaimed and recycled waste to make long-lasting products. Alfi seats are made of 100% reclaimed post-industrial waste – polypropylene combined with wood fiber.

The wood base is made from local ash by Amish craftsmen in Lancaster, Pennsylvania. Available in a natural or dark-stained finish.

"Alfi was inspired by the woven cane brasserie chairs you see out everywhere on Parisian sidewalks. The Emeco wood filled reclaimed polypropylene seat combines beautifully with the ash wooden leg structures, providing a rich play of materials and finishes. It's one of the most comfortable chairs I have designed." *Jasper Morrison*

Alfi Aluminum

Alfi Aluminum offers outdoor functionality with an aluminum base in non-corrosive recycled aluminum, with a clear or black anodized finish. Available for the 18" height chair, with low or high back.

For high traffic areas, the aluminum base adds value with its additional strength and ease of maintenance.

Alfi Soft

Alfi Soft acknowledges Alfi's humble character and comfort, quietly transforming it into an upholstered chair. The intelligently designed upholstered slipcover with a structured foam cushion slips over the seat and fits tightly once dressed.

Alfi Soft is retrofittable and removable, for easy maintenance. It is available in a hand-picked selection of Kvadrat/Maharam fabrics and Spinneybeck leather, as well as COM/COL.

Alfi chairs with Alfi Soft upholstered slipcovers at Gullmarsstrand Hotel & Restaurant, Sweden.

Alfi Work

The Alfi Work chair is available with multi-surface casters or glides. Alfi Work on casters has a gas shock for seat suspension as well as an adjustable seat height and swivel base. Seats comes in all 6 colors of the Alfi family, all made from 100% recycled polypropylene mixed with wood fiber.

As an optional add-on, our upholstered Alfi Soft slipcover offers an extra level of comfort for your Alfi Work chair. Available in a range of fabrics and leather, or choose your own custom textile.

Alfi Work with glides comes with plastic glides for all-around use or felt glides for hard floors. The swivel base with glides has a fixed seat height.

W: 59cm D: 50cm H: 80cm SH: 45.5cm AH: 67cm
WT: 14lb 6.3kg

ALFI BY JASPER MORRISON, 2015

Seats made from 100% reclaimed wood polypropylene.
Frames in local, sustainably sourced ash. Natural or dark stained finish.
Cast iron is used to integrate the seat and frame, providing stability and strength.

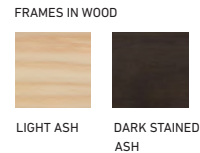

ALFI 3-SEAT BENCH, LOW BACK

W: 66 1/2" D: 18 3/4" H: 24" SH: 18"
W: 169cm D: 47.5cm H: 61cm SH: 45.5cm
WT: 36.5lb 16.5kg

ALFI 3-SEAT BENCH, HIGH BACK

W: 66 1/2" D: 19 3/4" H: 31 3/4" SH: 18"
W: 169cm D: 50cm H: 79.5cm SH: 45.5cm
WT: 40.2lb 18.2kg

Slight contraction marks, so called sink marks, are a natural outcome of the Alfi seat design and the thermodynamics of plastic molding. Where the four connection points in the plastic shell integrate with the frame, sink marks can be expected to be visible on all Alfi seats, to varying degrees.

ALFI ALUMINUM BY JASPER MORRISON, 2018

Seats made from 100% reclaimed wood polypropylene.
Frames in 80% recycled, non-corrosive aluminum.
Clear anodized or black powder coated finish.
Suitable for outdoor use.

ALFI ALUMINUM CHAIR, LOW BACK

W: 17" D: 18 3/4" H: 24 1/4" SH: 18"
W: 43cm D: 48cm H: 61.5cm SH: 45.5cm
WT: 9.5lb 4.3kg

ALFI ALUMINUM CHAIR, HIGH BACK

W: 17" D: 19 3/4" H: 31 1/2" SH: 18"
W: 43cm D: 50cm H: 80cm SH: 45.5cm
WT: 10.7lb 4.9kg

ALFI SOFT BY JASPER MORRISON, 2017
