

LEED Certification

LEED (Leadership in Energy and Environmental Design) is a division of the [US Green Building Council](#), a government sponsored organization whose goal is to promote environmentalism in the building industry. No product can be LEED Certified; Certification is only granted to the entire building or interior. A project is LEED Certified by qualifying for credits that accrue when environmentally and materially sound choices are made in the design and building process. Product choices can help the project qualify for LEED Certification by being environmentally sound and materially transparent. Based on the requirements of LEED v4.1, Emeco products contribute to credits listed below.

RATING SYSTEMS: LEED BD + C (Building Design and Construction) and ID+C (Interior Design and Construction)

CREDIT CATEGORY: MATERIALS AND RESOURCES

Sourcing of Raw Materials

Specifying Emeco furniture contributes to this credit in terms of Recycled Content because all of our products contain recycled content. Emeco aluminum furniture is made from at least 80% recycled aluminum, which in turn is endlessly recyclable. Emeco plastic seating is made from recycled PET or reclaimed polypropylene, both of which are in turn recyclable. Please refer to the individual product to confirm percentage. Based on the location of the project, and distance from Hanover, Pennsylvania, specifying Emeco products may also help credit achievement calculation for local sourcing.

APPLICABLE EMECO PRODUCTS: ALL*

** Navy Wood Chair and Alfi Soft slipcovers do not contain recycled content.*

Material Ingredients

Specifying any Emeco product contributes to this credit in terms of material disclosure. All our products have Health Product Declarations, HPDs, disclosed to 1000 ppm*. HPDs are published in our [Downloads Library](#).

APPLICABLE EMECO PRODUCTS: ALL*

**HPDs are available for all Emeco products except Alfi Work, Alfi Aluminum, Navy Officer, Navy Officer semi-upholstered, Parrish tables, Run accessories, Run cushions, Run shelf and all seat pads.*

Furniture and Medical Furnishings *(Only applies to LEED BD+C: Healthcare)*

Emeco products can contribute in a variety of ways, specifically through our VOC testing that complies with ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom. VOC Certificates are published in our [Downloads Library](#).

APPLICABLE EMECO PRODUCTS: ALL*

All Emeco products are certified Clean Air Gold, with the exception of the following, which are certified Clean Air Silver: Café tables with laminate table tops with plywood edge, Navy Officer seating, 1011 Navy, 1022 Navy and On & On upholstered. SU tables are not tested.

LEED Certification

CREDIT CATEGORY: MATERIALS AND RESOURCES

Construction and Demolition Waste Management

Emeco offers the ability to recycle and reuse of furniture at end of life, although we expect a lengthy lifetime of our products, which may contribute to both Diversion and Waste Prevention. Emeco uses 100% recyclable shipping and packing materials. The above may also contribute to rating system LEED O+M, Credit Waste Performance.

CREDIT CATEGORY: INDOOR ENVIRONMENTAL QUALITY

Low-Emitting Materials

Emeco products contribute to this credit based on extensive VOC testing that is in accordance with both ANSI/BIFMA e3-2019e, Sections 7.6.1, 7.6.2, 7.6.3 and California Department of Public Health (CDPH) Standard Method v1.2: Private Office and School Classroom. VOC Certificates are published in our [Downloads Library](#).

APPLICABLE EMECO PRODUCTS: ALL*

All Emeco products are certified Clean Air Gold, with the exception of the following, which are certified Clean Air Silver: Café tables with laminate table tops with plywood edge, Navy Officer seating, 1011 Navy, 1022 Navy and On & On upholstered. SU tables are not tested.
