

NAVY LOUNGE by JASPER MORRISON

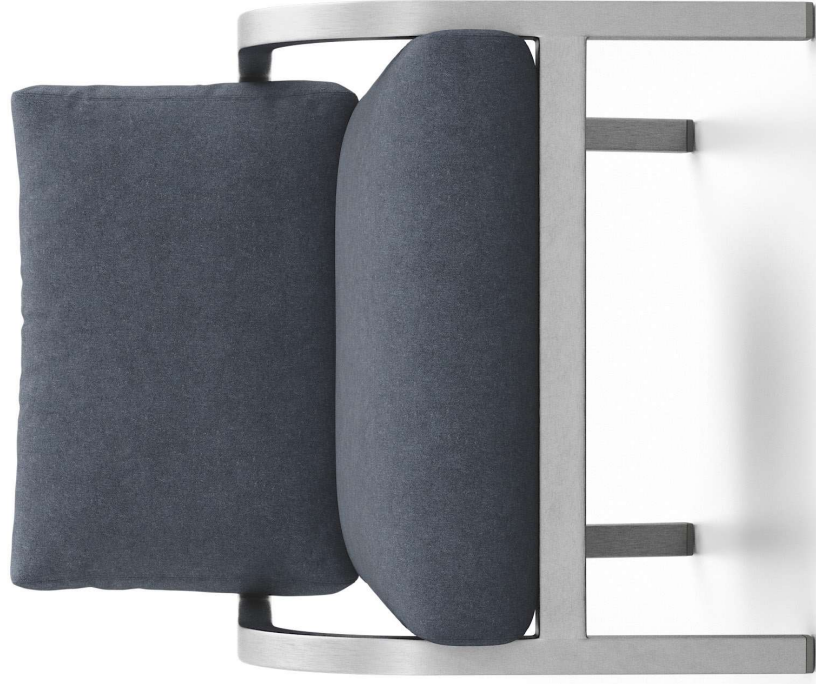

emeco

# FIRST LET'S MAKE THINGS THAT LAST.

In the throes of World War II, the U.S. Navy needed a place to sit. They commissioned a chair that was lightweight, non corrosive, fire resistant and torpedo proof. Emeco took on the challenge and in 1944 the 1006 Navy Chair was born. Handcrafted from 80% salvaged aluminum using a unique 77-step process, it was tested to last 150 years. Today we still make the Navy Chair the same way at our factory in Hanover, Pennsylvania.

As we apply what we've practiced in the past, we are looking toward the future. We are on a mission to make a positive impact on the environment. Our goals are to use waste material in our products, use as little energy as possible in our manufacturing, generate a minimum of waste in the process, and build strong, durable, beautiful furniture that lasts through generations. We've been on the same mission since 1944 and we will continue to search for new ways to recover and utilize discarded materials and make products that last.

History revisited.

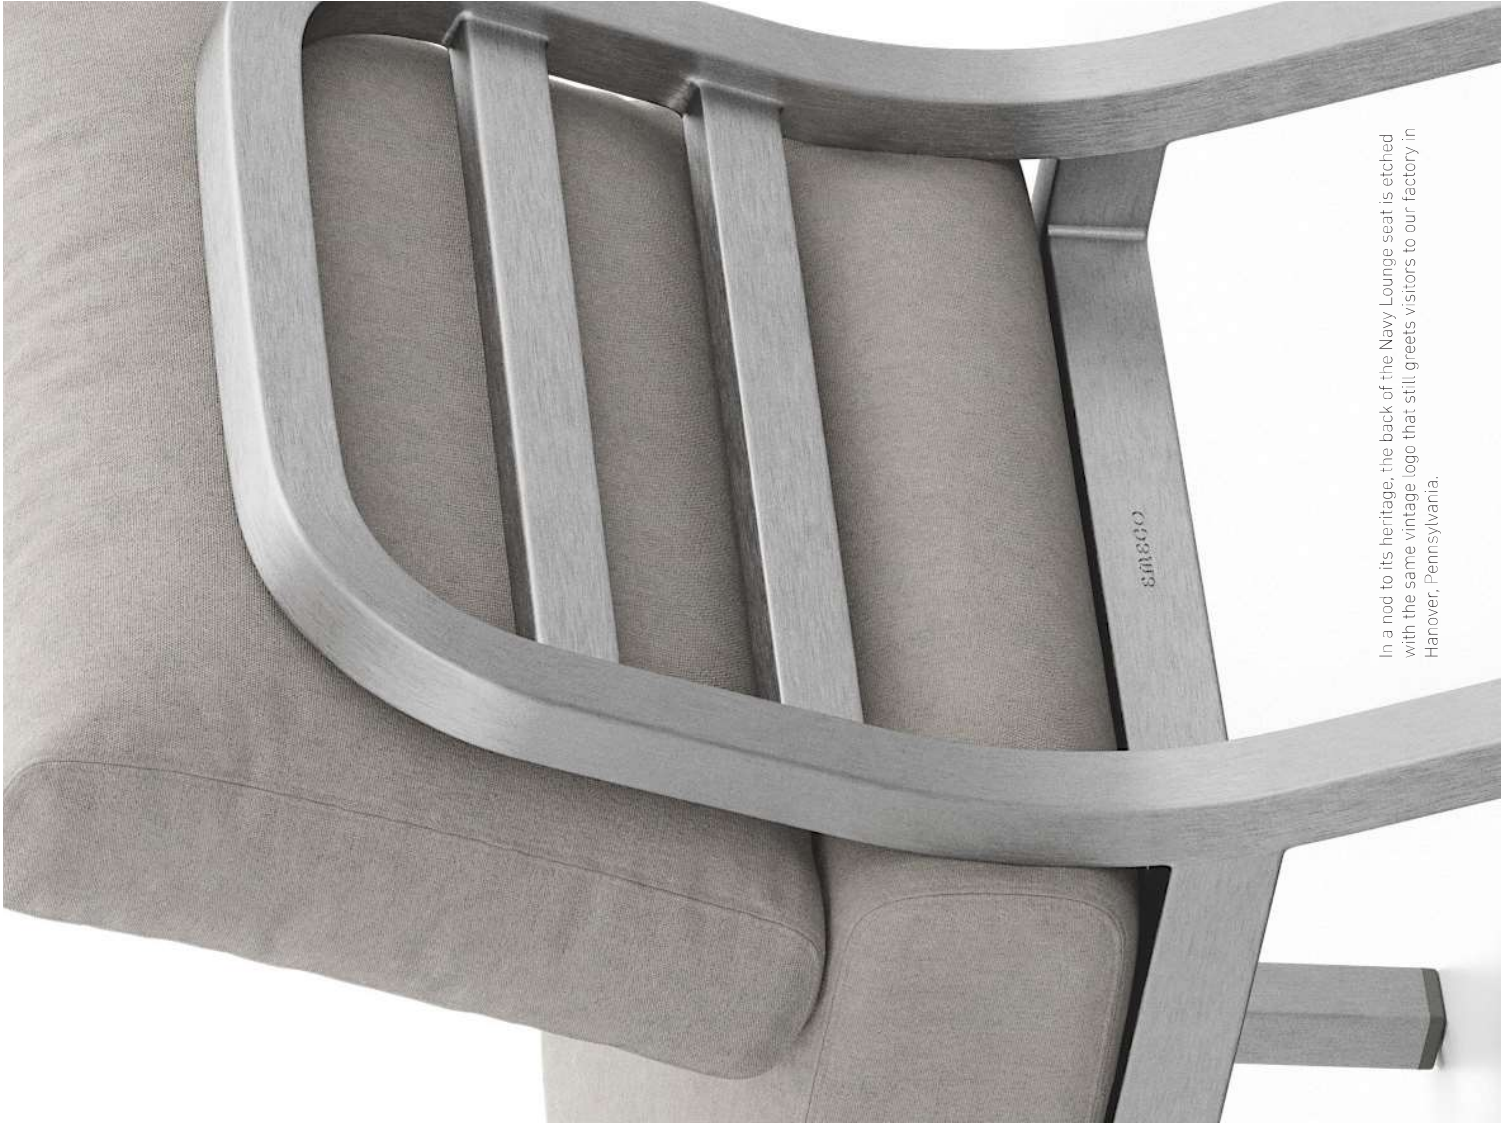

**NAVY LOUNGE by Jasper Morrison**

The Navy sofa returns from our dusty but rich archives. Originally made for the US Navy in the 1940s, Navy Lounge is a collection of sofas and lounge chairs that shines a light on our unique history and heritage, mindfully re-designed by Jasper Morrison to meet today's needs - indoors and out.

In a nod to its heritage, the back of the Navy Lounge seat is etched with the same vintage logo that still greets visitors to our factory in Hanover, Pennsylvania.

The iconic 1006 Navy chair is the standard we measure ourselves against. It informs and inspires both the visible and invisible values of all Emeco furniture. Navy Lounge shares its distinctive curved back shape and signature hand brushed finish. It is also handcrafted following the unique process used for 1006 Navy since 1944. Cutting, bending, hand welding and heat treating are some of the steps that give the recycled aluminum the unique strength Emeco is known for. The Navy Lounge frame comes with a lifetime warranty - just like the 1006 Navy chair.

## Meet the family.

The Navy Lounge collection features a lounge chair, lounge armchair, 2-seat and 3-seat sofa. Frames are handcrafted from recycled aluminum and offered in Emeco's signature hand brushed finish or powder coat colors, all outdoor approved. Upholstery options in leather, fabrics and outdoor textiles, or choose your own. Made in Hanover, Pennsylvania.

In & Out.

"Like other members of the Emeco family, the Navy Lounge is designed to weather the effects of time both physically and visually. The unusual combination of indoor/outdoor flexibility, longevity, light weight and superior comfort makes Navy Lounge a unique offering. Combined with the fact that the aluminum frame is recycled and recyclable endlessly and the cushions can be re-covered makes it an exceptionally wise choice."

-Jasper Morrison

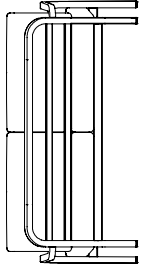

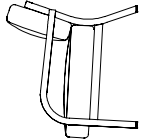

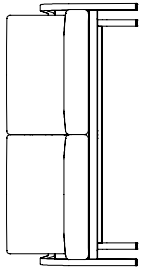

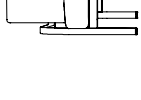

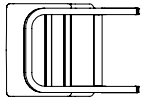

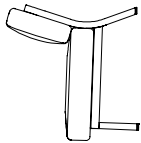

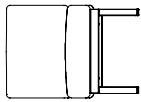

Make it yours.

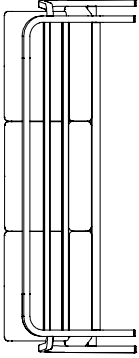

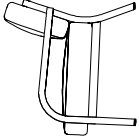

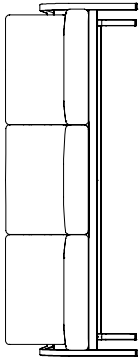

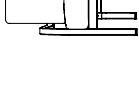

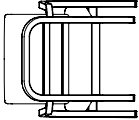

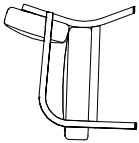

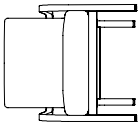

Navy Lounge is available in Emeco's in-house range of powder coat colors at no upcharge. All colors are approved for outdoor use. COM/COL upholstery also offered. Seen here: 2-seater sofa with Light Blue frame in Kvadrat Divina MD813, Armchair with Coral Orange frame in Sunbrella Canvas Rust.
