

## Bird Console Table Natural

Elevate your living space to new heights with the Bird collection. This console table's solid oak surface features a live edge design, a showcase for the wood's inherent beauty and natural qualities. Supporting the tabletop is an iron base, an artistic achievement in its own right, abstractly sculpted to evoke a bird taking flight.

- Bird-in-Flight Base: An abstractly sculpted iron base evokes a bird taking flight, turning the table's support structure into a design statement all its own.
- Live Edge Oak Top: A solid oak surface preserves the wood's natural edge, letting organic grain and raw character define the shape rather than a straight-cut line.
- One-of-a-Kind Character: Natural variation in the oak's grain, knots, and woodblock character means every Bird console arrives with surface details entirely unique to that piece.
- Organic Meets Iron: The pairing of raw live edge wood and sculptured iron creates a material contrast that feels dynamic, grounded, and considered from every angle.
