

Odi Cast Aluminum Decorative Object

Cut-out arches give geometry a grin. The Odi decorative object uses top-and-bottom cutouts to create a graphic silhouette that feels structured, playful, and quietly sculptural. Cast aluminum brings visual weight, while the textured silver finish adds a raw, hand-worked quality to the clean geometric form. The blocky shape and curved negative space keep each other in check. Small scale, strong point of view, and a confident shelf moment.

- **Graphic Arch Play:** Cut-out arches at the top and bottom create a bold, letter-like silhouette with a strong architectural presence, so the silhouette feels intentional from every angle.
- **Textured Silver Finish:** Cast aluminum in a textured silver finish brings visual weight, subtle variation, and a raw metal character, so the surface keeps changing in the light.
- **Geometry With Give:** A clean block form and curved negative space create contrast, keeping the Odi object structured, lively, and considered, giving the piece a clearer visual story.

Item Code	OT-1027-30
Swatch Code	
Country Of Origin	INDIA
Product Materials	Cast Aluminum
General Dimensions	6.0" W X 2.0" D X 5.5" H
