

Tolu Table Lamp Burgundy

Light off, it still steals the scene. A faceted geometric shade gives the Tolu table lamp a bold, sculptural presence, its angular planes and triangular faces catching and bouncing light in shifting, dramatic ways. A high-gloss burgundy finish across both shade and base turns the whole piece mirror-bright, scattering light around the room even before it's switched on. More decorative object than ordinary lamp—and confident enough to act like it.

- **Faceted And Bold:** A faceted geometric shade and base make a confident, sculptural statement that reads as decorative art on any surface in the room.
- **Light In Motion:** Angular planes and triangular faces catch and reflect light in shifting, dramatic ways, keeping the lamp dynamic even when switched off.
- **High-Gloss Finish:** A high-gloss burgundy finish across the shade and base creates a mirror-bright surface that scatters light around the room and catches the eye.
