

FILIGRANA T6 (110/120V)

Sebastian Wrong

Type
Table Light

Design
2023

An impressive sculptural addition to the iconic Filigrana range by Sebastian Wrong. A large, mushroom table light with a soft diffused glow, this beautifully designed lamp is an eye-catching statement piece. Featuring candy-coloured cane stripes around a Venetian mouth-blown acid-etched glass shade, it represents the best of traditional craftsmanship, technical mastery and modern design. The complex toadstool-inspired shape is created using a 16th century glass blowing technique that originated on the Venetian island of Murano.
