Description

The Oscar rack, designed by Alain van Havre, immediately attracts attention with its atypical compartment division. Notice the exceptional grooves in the doors: each narrow groove was carefully hand carved, making every Oscar piece unique.

Features 5 sliding doors. To enhance the natural material beauty, this teak product comes without any finishing or protective treatment applied. For more information, please refer to the care and maintenance instructions for 'natural teak'.

Designer Alain Van Havre

For Alain van Havre, inspiration is everything. Deeply connected to his environment and passionate about natural materials, he has developed an exceptional expertise for woodworking. Over the years, he has created his own visual language centred around form, a translation best described in collections such as the Bok, Graphic, Pl, and Stairs. He believes that for someone to connect with a design, it is important to bring it closer to nature. Over the past 20 years Alain has played a pivotal role in influencing the Ethnecraft designs we know and love today.
