

TAKE AWAY is a portable light designed by Nahtrang, which is light, modern in style and small. In a fast - moving world with constant change and small spaces, we need objects to adapt to each moment and need. It has a handle to make it easy to move around, with a wooden base to let it stand and a warm light that can be set at three intensities. It is also very easy to switch it on and off; you just need to gently press the diffuser according to the intensity you want. Since it is portable, it is charged with a mini USB cable and its autonomy depends on consumption: - 0'5W autonomy of 20 hours. - 1W autonomy of 10 hours. - 1'5W autonomy of 5 hours. Put it wherever you want: in the kids' bedroom to provide reading and playing light, in the entrance as support light, above a table or even in the
