## RF12818

G9 5600 LAMP HOLDER

Fig.2

Disconnect the electrical feed wires (F) from the lamp holder by pressing the push terminals with a paper clip (H) and then disconnect the ground wire from the terminal (E).(Fig.2-3)

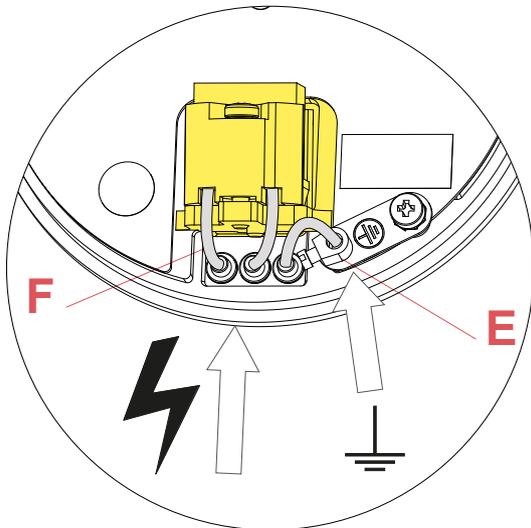

Fig.3

Assemble now the new spare-part:

Connect the electrical wires (F) to the lamp holder terminals.

Connect the Brown "L" (live) wire in the terminal that corresponds to the letter "L" present on the lamp holder and then connect the Blue "N" (neutral) wire in the terminal "N".

N.B. The electrical wires are connected by pushing the wires inside the terminals, therefore it is necessary to verify that they are connected properly.

Fix the lamp holder to its support by fastening the two screws (D) and then install the lamp-bulb (C). Fasten the diffuser (A) to the lamp body (B).(Fig.1 page 4)

**WARNING!** When installing and whenever acting on the appliance, ensure that the power supply has been switched off. For the installation of the spare-part, it is necessary to consult a qualified electrician.
