

# Corten Steel Outdoor Series

Product Fact Sheet

# Solene Fire Pit

With its low, grounding flame and generous curves, the Solene Fire Pit brings a sense of calm to outdoor spaces. Open-ended in design, multiple units can be arranged together to form a continuous line of fire. Crafted from corten steel, it develops a rich, natural patina over time.

# Lapel Planter 38

The Lapel Planter is crafted from Corten steel, known for its durability and weather resistance. Composed of interlocking flat sheets, it forms a sharp, lightweight structure with a raised central body for visual balance. Inspired by the asymmetry of fragmented cardboard, the design delivers a dynamic aesthetic that seamlessly integrates into any environment, adding a tactile, authentic touch. This piece is delivered flat-packed, ensuring effortless transport and seamless, tool-free assembly.

# Cortivo Outdoor Solar Light

Designed to illuminate outdoor pathways and gardens, the sculptural Cortivo Outdoor Solar Light is crafted from corten steel, developing a natural patina over time. The integrated solar panel at the top ensures quick charging, providing 7–8 hours of light on a full charge. A rechargeable AA battery is included as backup. The sharp stake allows for easy installation into soil or gravel, and the light can be moved as desired.

Rust

## Information

**Size** H: 46 x Ø: 18 cm /

H: 17.9 x Ø: 7 in

**Material** Iron corten

**Product notes** This solar lamp is designed to withstand outdoor conditions, but with a little care, you can extend its lifespan significantly. Wipe the solar panel regularly with a damp cloth to ensure it absorbs maximum sunlight. When the lamp is not in use for an extended period, especially during winter, it is recommended to remove the battery and store both lamp and battery in a dry place

**Attention** The corten surface will change over time to a rusty look. 0.2W 1.2V DC, Automatic Day-light sensor On/Off. Non-removable dimmable LED light source, Warm white. 3000K, CRI >90. 15lm. Recommended battery, size AAA, Alkaline or NI-MH only, 1.2V NI-MH 700MAH rechargeable. Battery included. Charging time 8-12 hours. Discharging Time: 7-8 hours. Class III, IP65. Our Corten steel products are delivered with a developed rust patina that will continue to stabilise naturally over time. During the initial period outdoors, rust runoff may occur and can stain the surface underneath.
