

OTO

LAMP H.I.I IN

DESIGN BY STUDIO FERMOB

ITEM 3960

Combining character with practicality, OTO is a wireless table lamp for use both indoors and outdoors. Its two light diffusers can be rotated 360°, recalling a totem-like sculpture, but with precision lighting built-in!

The two light sources are independent of one another to propose a multitude of situations: desk lamp, reading light, decorative lamp, lighting for a dining table, etc.

Designed to provide both direct and muted lighting, OTO gives you even more control over your lighting, whether at home or in a professional context (office, hotel, restaurant, etc.).
