

# Thalia Sofa

## **Preventative Measures: Fabric**

To help maintain the appearance of your sofa it should be vacuumed regularly, and kept out of direct sunlight to prevent fading. Blot spills immediately with a clean, absorbent white cloth.

## **Preventative Measures: Leather**

Our leathers are chosen to age beautifully and develop a rich natural patina over time. Hides have been carefully selected for their raw, natural surface characteristics which make each piece unique. Although the leather is highly durable, it will stretch and become softer over time as well as show scratches from pets, fingernails or clothing fasteners/rivets which all add to the unique character and depth. To help maintain the appearance of your sofa we recommend the leather be dusted with a dry cloth and vacuumed occasionally to remove debris from corners. Over time it may be necessary to use leather conditioners to revitalize the appearance of the surface or to remove light scratches if desired.

**Do not use abrasive cleaning products.**
