The cloud-like Sola Bi-Sectional is an open invitation to lounge. Embodying the ease of coastal living in a design inspired equally by contemporary Italian design and midcentury classics, Sola is perfect for entertaining or enjoying an afternoon siesta. A plush, expansive seating area, and back cushions filled with our signature, eco-friendly PET fill (made from recycled plastic spun into billowy, synthetic down) means an extra cozy experience. French-seam detailing, stepped arms, and inset legs all subtly contribute to a feeling of weightlessness that will beckon you to sink in after a long day.

Design Trade Professionals: We aim to keep our designs in stock and ready to ship quickly for projects on a tight timeline. Designs may be customized with COM and alternate finishes (minimum quantities may apply). Visit guscontract.com for more information about our Trade & Contract programs.

Sola Bi-Sectional

- Reversible (excluding leather) back cushions contain an eco-friendly, synthetic-down fill made from 378 recycled plastic water bottles.
- Reversible (excluding leather) seat cushions are crafted with high resiliency medium density foam covered in a Dacron wrap.
- French-seam detailing on all seat and back cushions.
- Leather is a semi-aniline dyed performance leather, designed to resist stains, scratches, and fading while preserving its natural appearance and texture.
- Our leathers may have distinct surface characteristics, natural markings, grain pattern and colour variations which differ from hide to hide and from one product to another, making each leather product unique.
- Surfaces scratches and wear marks on leather are normal and to be expected. Over time they will contribute to the unique personality, patina and visual charm of the design. If desired, scratches and wear marks may be minimized with the use of leather conditioner.
- With all leather products, some stretching over time is normal. This "working in" of the leather only adds to the comfort, softness and character of the design.
- Kiln-dried, hardwood inner frame with No-Sag, sinuous spring suspension system.
- Each component includes concealed connectors to securely join them to each other while in formation.
- Inset, non-marking feet.
- All joints have been stress tested.
- Manufactured to comply with California Prop Phase 2 standards.
- Manufactured to meet California TB117-2013 fire safety standards without the use of flame retardant additives in the upholstery foam.
- All fabric is California TB117-2013 certified and double rub tested.
