

# How to Install a Ceiling Fan

*Hunter*

While installing or replacing a ceiling fan might seem complicated, ceiling fan installation is a relatively straightforward process. With a few basic tools and materials, you can learn how to hang a ceiling fan in just a few steps. Refer to your owner's manual for detailed installation instructions.

**NOO LIVES**  
DIY Friendly

**TOOL & SUPPLIES**

**DURATION**  
1-2 HOURS

Wire pliers  
Pliers  
Screwdriver  
3/16" x 1/4" x 3/4"

Wire Taster  
Electric drill  
Ladder

**GETTING STARTED**

30 inch

7 feet

Turn off Power

**1 Uninstall and Remove an Existing Fixture**

**SWITCH OFF**  
Turn off power at the wall switch.

**VERIFY**  
Use a non-contact voltage tester to verify the power is off.

**REMOVE**  
Remove the existing fixture and mounting bracket.

After uninstalling the existing fixture, verify that the electrical box is ceiling fan rated. The ceiling fan box should be able to support 75 pounds.

**2 Install the Ceiling Bracket**

For downrod fans

For low profile fans

**3 Wire the Ceiling Fan**  
There are three main wiring methods for ceiling fans: standard pull-chain, pre-installed receiver, and remote receiver. Refer to your owner's manual for detailed wiring instructions.

Standard Pull-Chain

Pre-Installed Receiver

Remote Receiver

**4 Finish Installing the Canopy or Motor Housing**
