

# BENNINGTON Vertical Pendant

The Bennington Vertical Pendant is a study in rhythm and refinement. A turned solid white oak or walnut dowel descends vertically, capped with a sleek plated or powder-coated metal end, while LED extrusions playfully punctuate its length, varying in size and spacing to create a dynamic, luminous pattern. Available in two lengths, the pendant stands out as a singular sculptural statement or as part of a cluster, where multiples interact to form a striking, architectural composition. The Bennington's clean lines and natural warmth make it at home in both contemporary and classic interiors, bridging materiality and light with effortless elegance.
