Product Description: Architectural and timeless with a luxe mixture of materials, the Modern Mood Arched Display Cabinet combines Oak Veneers, Metal and Glass in a stunning statement piece. Crafted of Quartered Oak Veneers with wire-brush detailing in the softly-sophisticated Mink finish, the cabinet has two wood-framed tempered glass doors with soft-close hinges and magnetic catches. Behind the doors are two adjustable wood-framed glass shelves with plate grooves and two puck lights with a three-intensity touch switch on the right side of the back panel. The metal-wrapped base and the metal bar pulls are both in a warm pewter finish, and the bar pulls are accented with leather.

Collection Features: Unbound by geographical design, Modern Mood presents itself as an evolution of design choices, spanning a variety of decades and design movements, while maintaining an unmistakably modern aesthetic that transcends time. The 90-piece collection includes bedroom, dining room, home office, accent and occasional items characterized by substantive forms with soft architectural details. Elevated materials and brushed metal accents in a warm pewter finish are evident throughout the collection, including metal banding and edging as well as marble and glass accents. Crafted with flat cut quartered oak veneer with wire-brushed detailing, Modern Mood is presented in two finishes: Mink and Diamond. Delivering a dark, earthy brown with notes of black, Mink delivers a timeless aesthetic. A much lighter presentation is achieved with the Diamond finish, delivering a soft, warm, and inviting look.

Levelers
Metal wrapped base
Rounded corners

Material: Oak Veneers, Iron and Glass

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
